SCHOOL LEAVERS'
Course & Careers
Guide 2024/2025

#realworldready

**BE
REAL
WORLD
READY**

WELCOME TO OUR COURSE AND CAREERS GUIDE.

If you are leaving school in summer 2024 now is the time to start looking at your study options to plan your next steps.

Reading this guide will give you an insight into studying here at East Riding College and all of the subjects we offer, but nothing compares to paying us a visit during one of our open events and seeing our facilities in person!

As a student with us you can expect to get hands-on experience either on campus in our workshops or classrooms, or out in industry with our many employer links.

WHY CHOOSE US?

CHOICE

Our courses cover over 25 career areas with a range of subject choices.

We offer full-time vocational courses, T Levels and Apprenticeships.

We offer courses from Entry Level to Levels 3 & 4.

QUALITY

We have industry-standard facilities and resources.

Many of our teachers have real industry experience.

You'll train in realistic working environments.

SUCCESS

Our students go on to successful careers and top universities.

We have trained apprentices who have gone on to have amazing careers.

Our success stories speak for themselves. Please head to our social media to see up-to-date student case studies and news stories!

OPPORTUNITY

We prepare you for your future.

We have excellent links with local, national and international employers.

We offer industry-recognised qualifications.

STUDENT LIFE

We are focused on making your time with us the best it can be.

Our campus offers an exciting range of daily activities to get involved in.

Free transport to all further education students living more than 2 miles from College.

FINANCIAL SUPPORT

We offer a 16-19 Bursary Scheme to help with your studies.*

Our 16-19 Discretionary Student Support Fund is available to help with financial support when times are tough.*

Childcare support is available through the Care to Learn scheme*

* Subject to eligibility

HERE FOR YOU

Our Student Services team are there to help you transition from school to College as smoothly as possible. They'll be there to help you from your initial application, through to your interview and along the way after enrolment.

CAREERS ADVICE

If you really don't know which course is for you, or are torn between a few different subjects, our Careers Advisers are there for you from before you arrive, to the end of your journey with us.

You can have a one-to-one meeting with them so they know your personal situation and aspirations, which means they can give you the best advice to help you achieve your goals. If you think this is something that would be helpful, email them at guidance-services@eastridingcollege.ac.uk

They're always happy to help!

LEARNER COACHES

Your welfare is our top priority, so when you enrol, you'll be allocated a Learner Coach. These staff will help you in areas such as attendance, achievement and progression.

Learner Coaches provide a programme of individual coaching, which means they'll get to know your needs and in turn be able to help you throughout your time with us. Learner Coaches provide a support system for each student, which is great for your personal development and helping you overcome any barriers to learning.

FINANCIAL SUPPORT – BURSARY

Many students need some financial help while studying and here at East Riding College there are options to support you, depending on your personal circumstances.

This support might be able to help with course costs for supplies, travel, meals at College, childcare and other study-related expenses. There is increased financial support for young people who are from vulnerable groups, specifically those in care, care leavers and young people in receipt of income support or universal credit, subject to eligibility. There is also support for those in receipt of both Disability Living Allowance or Personal Independence Payments, in their own right as well as Employment and Support Allowance or Universal Credit in their own right.

To find out more, please contact our Learner Finance support team by emailing learnerfinance@eastridingcollege.ac.uk or head to our website: eastridingcollege.ac.uk/financial-support.

COUNSELLING

At East Riding College you can access an onsite counsellor who you can talk to when you need extra support. This is completely confidential and covers all aspects of mental health and emotional wellbeing.

To access counselling, please email guidance-services@eastridingcollege.ac.uk or ask reception or a Learner Coach for a referral form.

Our counselling team are based on-site in the Contemplation Room.

INCLUSION SUPPORT

The inclusion service is available to all students with identified needs, offering support and help with:

- Practical advice and support for physical disabilities and specified learning difficulties such as ADD, ADHD, Asperger's syndrome, dyslexia and other medical conditions and those with mental health conditions
- Access to specialist equipment for your course
- Support in the wider College environment
- Support for visual or hearing impairment.

You may have needs that are not listed above, please contact us to discuss your individual requirements. We are here to help, so don't hesitate to get in touch on [0345 120 0044](tel:03451200044).

SAFEGUARDING

To look after all the students and staff here at ERC there is the Safeguarding and Emotional Wellbeing Team, who are available to talk to if you have any concerns, are unhappy, or even worried about the welfare of a friend or a fellow student.

The team are here to chat things through and are very easy to approach. You can talk to one of them about problems you might be having, which might include being bullied, abuse, self-harm, accommodation issues, caring responsibilities, and anything else that you may be concerned about.

Our Safeguarding and Emotional Wellbeing team consist of the Learner Coaches, the Student Engagement Officer and our Designated Safeguarding Leads. You can contact the team at safeguarding@eastridingcollege.ac.uk or on [01262 455280](tel:01262455280) or speak to any member of the team in person.

The Safeguarding and Emotional Wellbeing Team also support children who are looked after (CLAs), Care Leavers and Young Carers. We work closely with support workers to ensure we have the right support in place to enable progression through both further and higher education.

SUPPORT

TRANSPORT

It's so easy to get to the East Riding College. There is a whole fleet of EYMS buses to jump on which allows you to get to College if you live on one of our routes, for FREE with the EYMS app.

To apply for access to the East Riding College EYMS app, or to apply for a bus pass if you do not have a smart phone, please contact the Learner Finance Team at learnerfinance@eastridingcollege.ac.uk or request a financial assistance form from reception.

Please see our website for our transport service's current routes and further information: eastridingcollege.ac.uk/transport.

BUS ROUTES

East Riding College, Beverley now has new bus routes from Hull!

If you live more than two miles away you are entitled to FREE TRANSPORT to East Riding College - No hidden costs! Just two of the many bus routes we have, to support our students to travel to study with us:

OUR CAMPUSES

BEVERLEY

Our newest campus is in Beverley and is within the lively Flemingate shopping and leisure development

The campus is packed with the latest teaching and learning technology to ensure you get the most out of your course and have an excellent experience. Students learn in real-life commercial environments like our Ellwell's restaurant and Inspire hair and beauty salons. Construction, engineering and motor vehicle workshop space is provided in dedicated facilities behind our campus, on Priory Road.

BRIDLINGTON

Our Bridlington campus is a modern, purpose-built learning environment not far from Bridlington Old Town.

It houses specialist facilities such as the Clinical Skills Centre and Fashion Studio. It is also home to Archers, our training kitchen and restaurant, as well as another Inspire hair and beauty salon.

HULL

Our Hull site is home to our specialist music courses and also where lots of short courses are delivered, including health and safety.

Located in the city centre, our Hull campus is within walking distance of major transport links.

YORKSHIRE & HUMBER

|---|---|---|---|---|---|---|---|---|---|---|
| I | N | S | T | I | T | U | T | E | O | F |
| T | E | C | H | N | O | L | O | G | Y | |

The Yorkshire and Humber Institute of Technology at East Riding College is part of a regional Institute of Technology (IoT) formed by a unique consortium of colleges.

The IoT in Beverley houses specialist, industry-standard equipment and employs expert teachers to develop the technical STEM skills of engineers and technicians in our region.

LIFE ON CAMPUS

REFECTORY

You're never short of food choices at East Riding College.

The refectory food is amazing, and the canteen team are super friendly. It's a great place to chill out and grab some food or a morning coffee. With meals starting from £3, it's not only tasty, it's also affordable.

A huge choice of diverse meals are available including a range of premium sandwiches and healthy home cooked meals! If you're a vegetarian or vegan there is always a tasty option. If you ask the team what's in the food, they'll be more than happy to help.

ELLWELLS & ARCHERS RESTAURANTS

Both campuses offer commercial restaurants in the hospitality departments.

Ellwells at Beverley and Archers at Bridlington. They are run by the students offering a unique lunch and dinner menu that is ideal if you want to treat yourself, or enjoy a relaxing lunch break. The menus are changed termly and offer a wide range of reasonably priced meals for you to choose from.

SPORTS CENTRE

Our St Mary's Walk campus at Bridlington offers a fully equipped gym giving you the chance to train and workout, with a reduced membership rate exclusively for students.

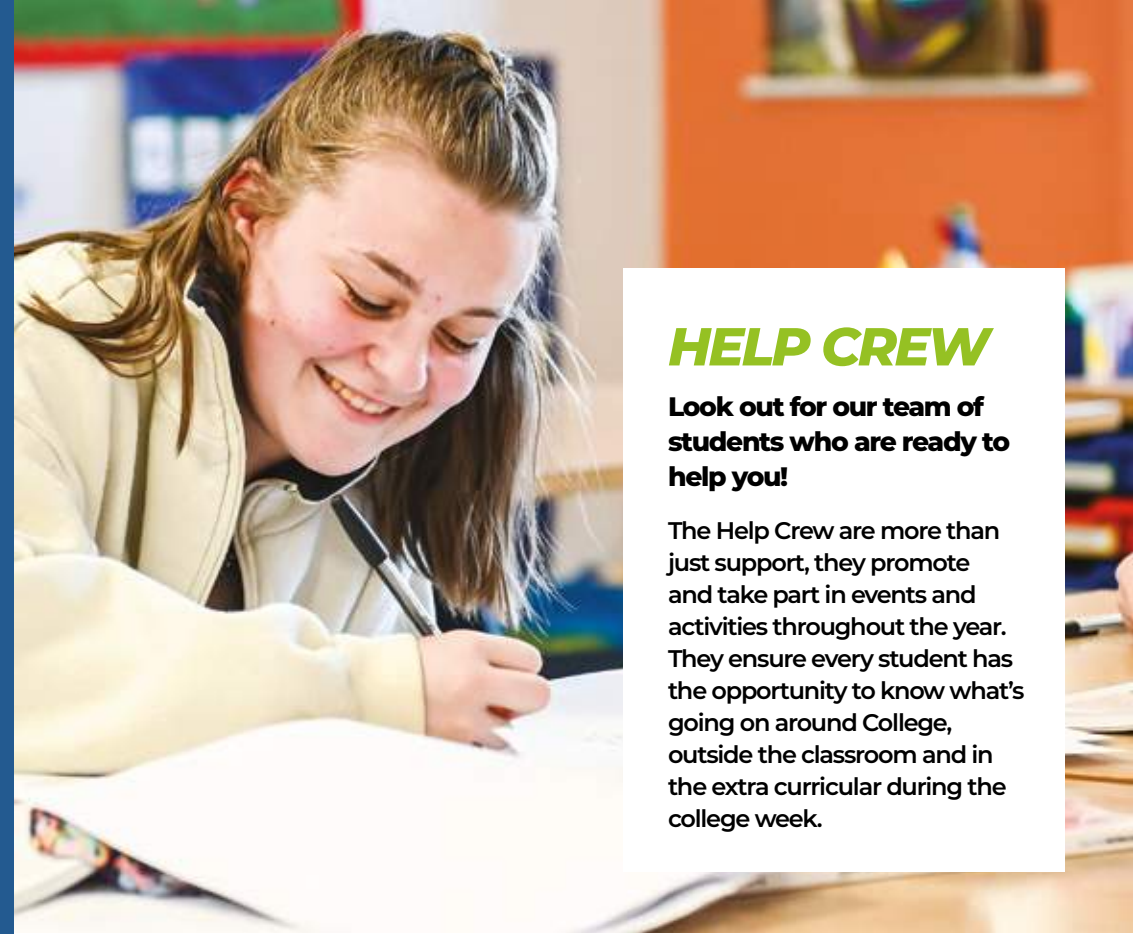

The Multi-Use Games Area (MUGA) is made up of artificial pitches which have been designed for students, staff, local sports clubs, and community groups to use throughout the day and evening for football and hockey on an artificial grass pitch.

E-LEARNING CENTRES

When you need some peace and quiet to read or study, our library offers a bright and welcoming space and is equipped with PCs and printers for individual or group study and research.

This is a great space to wind down and get on with some work, or even chill with a book. You can use the computers, laptops and ipads, which are available to borrow. Photocopying services are also available, as well as access to thousands of e-books and e-resources in our online library 24/7, via the College virtual learning environment. Free Wi-Fi is available across the campus so you can work from your own laptops.

HELP CREW

Look out for our team of students who are ready to help you!

The Help Crew are more than just support, they promote and take part in events and activities throughout the year. They ensure every student has the opportunity to know what's going on around College, outside the classroom and in the extra curricular during the college week.

INSPIRE HAIR & BEAUTY SALON

Our Bridlington and Beverley campuses have their very own hair and beauty salon – Inspire Hair & Beauty, where you can take advantage of fantastic discounts for hair and beauty treatments.

It is open during the day and selected evenings.

ENRICHMENT ACTIVITIES

There is plenty on offer in terms of enrichment; whether it's trying something new like archery or martial arts, taking part in gaming tournaments, developing employability skills or getting involved with our Learner Voice.

Over the course of the year, there will also be various themed weeks and events offering a range of opportunities to upskill yourself and improve your awareness and your mental and physical wellbeing, such as our annual My Next Steps event and Wellbeing Week.

LOOK OUT FOR ANNOUNCEMENTS FROM OUR STUDENT ENGAGEMENT OFFICER AND KEEP UP-TO-DATE WITH OUR SOCIAL MEDIA PAGES FOR MORE INFO!

OPEN EVENTS, TASTERS & TOURS

OPEN EVENTS

Open events are a great chance for you to come and have a look around the College and see if it's your vibe.

Each course will have a number of teachers available to chat to, plus there are often live demonstrations. It's a great way for you to see for yourself how fun being at College can be, and to find something you are passionate about.

For all our open event dates and information go to:
eastridingcollege.ac.uk/open-events.

CAMPUS TOURS

If you can't make it to an open event, you can book a tour with the Schools Liason team.

You will be able to see the campus and specific areas, as well as find out more about the courses and College life.

To book a tour please contact reception on **0345 120 0044**.

ENTRY REQUIREMENTS

Entry requirements will vary depending on the requirements of the course you are applying for and this will be discussed at your interview.

Full information about entry requirements can be found under each subject area on our website: eastridingcollege.ac.uk

There is a course for everyone at East Riding College, and you will be enrolled on the right course and level for your grades.

HOW TO APPLY

APPLYING IS REALLY EASY, YOU CAN DO IT ONLINE...

THIS WAY...

logonmoveon.co.uk

for East Riding and Hull schools.

OR THIS WAY...

eastridingcollege.ac.uk/courses

When applying, please provide your mobile number and email address so that we can get in touch. Once the application has gone through, you'll receive a link to book your interview.

REMEMBER THIS...

It's never too late to apply! It's important to make the right choice for yourself and your future, we are always there to help if you need guidance.

Contact the Guidance Team on **0345 120 0044** or email guidance-services@eastridingcollege.ac.uk

APPRENTICESHIPS

Apprenticeships

Apprenticeships are a great opportunity for those looking for their first role after leaving full-time education. An apprenticeship is a real job where you learn, gain experience and get paid. You're an employee with a contract of employment and holiday leave.

Businesses are always looking for people with real experience – with an apprenticeship you get that experience while you learn.

In order to do an apprenticeship, you need an employer as well as a training provider or college. You can apply for a current apprenticeship in the following ways:

1. You can apply for a current apprenticeship vacancy via our website through this QR code:

or via the National Apprenticeship Service (NAS) at [apprenticeships.gov.uk/apprentices/browse-apprenticeships](https://www.apprenticeships.gov.uk/apprentices/browse-apprenticeships).

2. You can contact employers with your CV to ask if they would be willing to take you on as an apprentice.

If you are successful, you can email us at businessdevelopment@eastridingcollege.ac.uk to start your Apprenticeship journey.

WE OFFER APPRENTICESHIPS IN THE FOLLOWING AREAS:

- Accounting
- Business
- Construction
- Customer Service, Retail & Warehousing
- Early Years & Care Services
- Engineering
- Food Manufacture
- Hairdressing & Beauty Therapy
- Hospitality & Catering
- HR
- IT & Digital
- Leadership & Management
- Motor Vehicle
- Technology & Teaching

T-LEVELS

THE NEXT LEVEL QUALIFICATION

WHAT ARE T LEVELS?

T Levels are qualifications designed to give you a head start towards the future you want.

They follow GCSEs and are equivalent to three A Levels. The two-year qualification brings classroom and work placement together, on a course designed in collaboration with the best employers.

You'll spend 80% of your time in the classroom and 20% on a 45-day placement to equip you with the knowledge and skills companies are looking for. Your T Level will help you to step straight into your chosen career, an apprenticeship or a degree. Wherever your future is heading, take it to the next level.

We are proud to offer T Levels as a choice, they are available in:

- **Building services engineering for construction (Electrotechnical Engineering)**
- **Digital Production Design Development (Computer Science)**
- **Machining & Toolmaking**
- **Onsite Construction - Bricklaying**
- **Onsite Construction - Carpentry & Joinery**
- **Education & Childcare**

T LEVEL BUILDING SERVICES ENGINEERING FOR CONSTRUCTION (ELECTROTECHNICAL ENGINEERING)

The qualification will help you gain an understanding of the BSE industry and the sector.

You will cover topics such as: Health and Safety, construction science principles, sustainability in the construction industry and building services engineering systems.

WHAT WILL I LEARN?

- Electrotechnical engineering
- Electrical and electronic equipment engineering
- Protection systems engineering
- Gas engineering.

WORK EXPERIENCE

A work placement with a duration of 315 hours (minimum) is needed as this forms part of your course and support you in the 'employer set project' element of the course. This is scheduled for the second year of the course.

CAREER OPPORTUNITIES:

This qualification focuses on the development of knowledge and skills needed for working in the BSE industry, which will prepare you to enter the industry through employment or as an Apprentice. Furthermore, the completion of this qualification gives the student the opportunity to progress onto higher education courses and training.

The structure of the qualification is designed to give you the breadth of knowledge and understanding across the BSE industry but also equips you with necessary occupational and core skills to enter the industry. This qualification is designed to support fair access and allows you to manage and improve your own performance.

T LEVEL DIGITAL PRODUCTION, DESIGN & DEVELOPMENT

During the two-year programme, students will learn the core knowledge that underpins each industry.

They will also develop occupationally specific skills that will allow them to enter skilled employment within a specific occupation.

There will be opportunities for industrial trips and visits and a number of guest speakers will be invited in to contextualise your learning.

The purpose of the T Level technical qualification in Digital Production, Design and Development is to ensure students have the knowledge and skills needed to progress into highly skilled employment, an Apprenticeship or higher level study, including university, within the specialist area of software design and development.

WHAT WILL I LEARN?

The course is predominantly taught face-to-face and students will learn about the following topics:

- Problem solving
- Programming
- Emerging issues and impact of digital
- IT-related legislation
- Business context
- Data
- Digital environments (networking and PC builds)
- Cyber security
- Testing.

WORK EXPERIENCE

Industry placement: of at least 315 hours (approximately 45 days) with an employer to make sure you have authentic experience of the workplace.

CAREER OPPORTUNITIES:

The digital industry is a major source of employment in the UK, with 1.46 million people working in digital companies and around 45,000 digital jobs advertised at any one time.

Digital skills span all industries; almost all jobs in the UK today require employees to have a proficient level of digital literacy. The UK has positioned itself to be the 'digital capital of Europe' as it continues to invest billions every year in digital skills and commerce.

UNIVERSITY & FURTHER STUDIES:

Foundation degree/BA degree in Computing technologies.

T LEVEL EDUCATION & EARLY YEARS

The T level in Education and Early Years is a two-year program which aims to prepare students to gain the knowledge, skills and practical experience necessary to work with young children either in nursery settings, primary school or in various other careers in the sector.

To study on a T level programme, you need to achieve a minimum of four GCSEs at grades 4-9 which must include maths and English language.

WHAT WILL I LEARN?

In the first year, you will study the 12 core elements which include:

- Child development
- Working in partnership
- Equality, diversity and inclusive practice
- Reflective practice
- Special educational needs
- Safeguarding and well-being.

In the second year the emphasis will be on the occupational specialism to gain your Early Years Educator which is the industry standard licence to practice at Level 3.

WORK EXPERIENCE

Students will undertake a minimum of 750 hours practical work placement experience over the duration of the course. This can be in a variety of early years settings and with children between the ages of 0 to 7 years.

T-LEVELS

THE NEXT LEVEL QUALIFICATION

CAREER OPPORTUNITIES:

- Nursery practitioner
- Primary school teacher
- Child psychologist
- Social worker.

UNIVERSITY & FURTHER STUDIES:

The T Level in Education and Early Years carries UCAS points which will allow you to study at a higher education level for a career as a primary school teacher, child psychologist, children's play worker or to further your career working in a nursery.

T LEVEL ENGINEERING, MANUFACTURING, PROCESS & CONTROL - MACHINING & TOOLMAKING TECHNOLOGIES

The T Level technical qualification in Engineering, Manufacturing, Processing and Control allows students to gain an understanding of what is needed to work within the engineering industry

Topics covered include processes of production and manufacturing, materials, specialist machinery, product and project management and quality assurance and quality control.

WHAT WILL I LEARN?

- Processes of production and manufacturing
- Materials used in production, manufacturing, and fabrication
- Environments
- Specialist machinery utilised in the production and manufacturing environments
- Product and project management
- Quality assurance and quality control.

WORK EXPERIENCE

A work placement with a duration of 315 hours (minimum) is needed as this forms part of your course and support you in the 'employer set project' element of the course. This is scheduled for the second year of the course.

CAREER OPPORTUNITIES:

This technical qualification focuses on the development of knowledge and skills needed for working in the Engineering industry, which will prepare you to enter the industry through employment or as an apprentice. Furthermore, the completion of this qualification gives you the opportunity to progress onto higher education courses and training.

The structure of the qualification is designed to give you the breadth of knowledge and understanding across the Engineering, Manufacturing, Process & Control industry but also equips you with necessary occupational and core skills to enter the industry. This qualification is designed to support fair access and allows you to manage and improve your own performance.

T LEVEL ONSITE CONSTRUCTION BRICKLAYING

This course has been designed to deliver a high level of knowledge about the onsite industry as well as the occupational skills required to enter the industry.

The qualification will help you gain an understanding of the onsite industry and the sector, and you will cover topics such as health and safety, construction science principles and sustainability in the construction industry

WHAT WILL I LEARN?

- Bricklaying and construction principles.

WORK EXPERIENCE

A work placement with a duration of 315 hours (minimum) is needed as this forms part of your course and support you in the 'employer set project' element of the course. This is scheduled for the second year of the course.

The structure of the qualification is designed to give you the breadth of knowledge and understanding across the onsite industry but also equips you with necessary occupational and core skills to enter the industry. This qualification is designed to support fair access and allows you to manage and improve your own performance.

T LEVEL ONSITE CONSTRUCTION CARPENTRY & JOINERY

This course has been designed to deliver a high level of knowledge about the onsite industry as well as the occupational skills required to enter the industry.

The qualification will help you gain an understanding of the onsite industry and the sector, and you will cover topics such as health and safety, construction science principles and sustainability in the construction industry.

WHAT WILL I LEARN?

- Carpentry and Joinery and construction principles.

WORK EXPERIENCE

A work placement with a duration of 315 hours (minimum) is needed as this forms part of your course and support you in the 'employer set project' element of the course. This is scheduled for the second year of the course.

CAREER OPPORTUNITIES:

This technical qualification focuses on the development of knowledge and skills needed for working in the onsite industry, which will prepare you to enter the industry through employment or as an apprentice. Furthermore, the completion of this qualification gives you the opportunity to progress to higher education courses and training.

The structure of the qualification is designed to give you the breadth of knowledge and understanding across the onsite industry but also equips you with necessary occupational and core skills to enter the industry. This qualification is designed to support fair access and allows you to manage and improve your own performance.

FOUNDATION

Our foundation programmes give you the chance to develop a wide range of personal, social and work-related skills. You will become more independent, learn more independently than at school and develop work-related skills.

You will work on your core employability skills such as communication, teamwork and enterprise. We work with a lot of employers, allowing our foundation students to gain real-life work experience and practical skills that would suit lots of different workplaces.

INTRODUCTORY BUSINESS ADMINISTRATION

The qualification is not designed to lead directly to employment but will maximise opportunities for students to progress by focusing on the development of transferable and sector-related skills around Business Administration.

| LEVEL | COURSE | DURATION |
|---------|---|----------|
| Level 1 | Introductory to Business Administration | One year |

WHAT WILL I STUDY?

You will be expected to complete all core units such as;

- Being organised
- Developing a personal progression plan
- Working with others and researching a topic

Alongside these core units, six sector units will need completing. Examples of these units include:

- Finding out about businesses in your area
- Branding a product
- Creating a visual display
- Communicating with customers.

All units provide students will the opportunity to develop the skills needed for future study and eventually employment.

SITE/CAMPUS:

Beverley

HOW WILL I BE ASSESSED?

As a Level 1 qualification the pass standard requires you to complete routine, simple and directed tasks by applying your knowledge and skills.

It is expected that you complete tasks fully under supervision, direction or with guidance. At merit and distinction levels, you may be expected to complete tasks in greater detail or with greater confidence or independence.

ENTRY REQUIREMENTS:

- A satisfactory College interview
- Suitable references
- Appropriate level of English and mathematics.

PERFORMING ARTS

The Performing Arts course is ideal if you want to explore your talents in acting, dance and gain some experience in performing arts.

You will gain confidence in people and life skills as well as developing creative thinking. Many skills developed on the course such as communication, teamwork and creativity are transferable to other area of life.

| LEVEL | COURSE | DURATION |
|---------------|-----------------|----------|
| Entry Level 3 | Performing Arts | One year |
| Level 1 | Performing Arts | One year |

WHAT WILL I STUDY?

You will learn basic performance skills and techniques to allow you to create a character and perform in front of an audience. You will have lots of opportunities to develop your personal learning, design and thinking skills.

SITE/CAMPUS:

Beverley

You could progress onto either supported employment, voluntary work or paid employment.

be #realworldready with

A LEVEL MATHS PART-TIME

Our A Level maths course is available to study at the Flemingate campus in Beverley. We are one of very few colleges nationally which offer this for study in evening classes.

The course runs for two years following the AQA 7357 specification with exams at the conclusion of the period.

? WHAT WILL I LEARN?

Pure mathematics – including, inter alia, geometry, calculus, problem solving, mathematical proof, logarithms and exponentials, trigonometry, functions, and vectors

Statistics – including sampling, data presentation and interpretation, probability, statistical distributions, and hypothesis testing

Mechanics – Quantities and units in mechanics, kinematics, Forces and Newton's laws, and Moments

? WHAT'S NEXT?

CAREER OPPORTUNITIES:

Higher level mathematics provides an entry into careers in teaching, business, finance and accountancy, as well as supporting progress in careers in engineering, computing and science.

Mathematics also teaches students to think logically and improve their reasoning and problem-solving skills.

On successful completion of the course you would have increased career options, particularly in relation to financial work, where employers generally regard good maths skills as desirable. In addition, you could use this as a basis for a teaching qualification (maths is a shortage area) or to continue into Higher education in maths, engineering or computer science.

? WHAT WILL I LEARN?

- Imagined Worlds (Text choice from Dracula, Frankenstein, The Handmaid's Tale or The Lovely Bones)
- Poetic Voices (Poet choice between John Donne, Carol Ann Duffy, Seamus Heaney and Robert Browning)
- Remembered Writing (Choices from The Suspicions of Mr Whicher, The Kite Runner, The Great Gatsby, or Into the Wild)
- Drama (Text choice between A Streetcar Named Desire, All My Sons, Othello or The Herd)
- Various critical commentaries.

? WHAT'S NEXT?

CAREER OPPORTUNITIES:

University courses such as English, Law, teaching, media and journalism Careers in Journalism, the Media or Education

English can be useful for those wanting to work in jobs that involve linguistics, whether that be in management, training or teaching.

ASSESSMENT:

Two one and a half hour exams if studying AS Level.

If studying A2 Level: a two and a half hour exam and a three hour exam, plus a coursework component worth 20%.

Our A Level in English Language and Literature will help you develop your critical, creative and analytical linguistic and literary skills.

You will consider place, point of view and genre in all areas of study, whilst developing your understanding of socio-historical context in Literature and develop your understanding of Language change.

Prior Knowledge:

Students should have at least five GCSE qualifications at a Level 4 or above, with ideally a grade 5 in English Language and Literature. They should have a keen interest in all aspects of English Language and Literature and need to be self-motivated, objective readers as well as creative writers.

BRICKLAYING

? **WHAT ARE MY OPTIONS?**

| LEVEL | COURSE | DURATION |
|----------|---------------------------|-----------|
| Levels 1 | Construction Multi Skills | Full-time |

For a list of entry requirements for each course level see **page 22**

? **WHAT WILL I LEARN?**

- Conducting site surveys
- Planning
- Precise measuring and accuracy
- Mixing cement and mortar
- Laying bricks
- Laying breeze blocks
- Pointing
- Problem solving
- Working to deadlines
- Teamwork
- Communication skills.

? **WHAT'S NEXT?**

CAREER OPPORTUNITIES:

- Bricklayer
- Housebuilder
- Restoration work
- Property developer.

UNIVERSITY & FURTHER STUDIES:

- HNC/HND Construction.

The teachers on this course are all from building and construction backgrounds, which means they all know the tricks of the trade and are great at giving guidance when it comes to real-world practices.

The workshop is always buzzing too; they really know how to combine learning a trade and having fun!

From site surveying, planning and measuring, to mixing cement, laying bricks and blocks to pointing, this course is really practical. Who knows, you might be able to build your own house one day!

be **#realworldready**
for a career in

**BUSINESS &
MARKETING**

If you are aiming for a career in marketing and branding, communications, PR or sales, this is an excellent starting point.

This qualification covers a range of marketing concepts including what marketing is, how marketing is used in a business, how different products and services are marketed and also gives practical opportunities to create digital marketing communications and campaigns.

The Level 3 course provides a solid grounding in a wide range of business topics allowing you to experience a whole range of issues affecting the business world. The course is delivered by experienced teachers who have recent industry experience. A practical approach is taken to course delivery to bring the subjects alive.

? WHAT ARE MY OPTIONS?

| LEVEL | COURSE | DURATION |
|--------------|----------------------|-----------|
| Levels 2 & 3 | Business & Marketing | Full-time |

For a list of entry requirements for each course level see **page 22**

? WHAT WILL I LEARN?

- Time management
- Team work and collaborative working
- Communication
- Research
- Planning
- Costing.

? WHAT'S NEXT?

CAREER OPPORTUNITIES:

- Accountant
- Management consultant
- Social Media Manager
- Financial Analysis
- Communications Manager
- Data Analyst
- Human Resources
- Marketing
- Administration
- Self-employment.

UNIVERSITY & FURTHER STUDIES:

- Business and Management
- Marketing
- Business Ethics
- Business and Fashion Management
- Retail and Events Management.

**CARPENTRY &
JOINERY**

be #realworldready
for a career in

**CATERING &
HOSPITALITY**

In this subject area you will learn a host of valuable carpentry and joinery skills including using hand tools, working from plans, preparing and installing floorboards, joists and window frames and much more.

Timber is an important part of any structure; and carpenters and joiners prepare the wooden parts of a building. Usually, a joiner will work from plans to prepare the materials; the carpenter then puts them in position.

Throughout our courses, you will have the opportunity to perfect both your joinery and carpentry skills, providing you with a sturdy foundation for future employment.

? **WHAT ARE MY OPTIONS?**

| LEVEL | COURSE | DURATION |
|----------------|---------------------|-----------|
| Levels 1, 2, 3 | Carpentry & Joinery | Full-time |

For a list of entry requirements for each course level see **page 22**

? **WHAT WILL I LEARN?**

- Health and safety
- Use of hand tools
- Measuring and accuracy
- Quantifying material
- Teamwork
- Communication
- Problem solving
- Time management
- Creativity
- Working from plans
- Creating and preparing floorboards, joists, window frames and more.

? **WHAT'S NEXT?**

CAREER OPPORTUNITIES:

- Site joiner
- Workshop joiner
- Self-employed joiner
- Kitchen fitter.

UNIVERSITY & FURTHER STUDIES:

- HNC/HND Construction.

? **WHAT ARE MY OPTIONS?**

| LEVEL | COURSE | DURATION |
|----------------|------------------------|-----------|
| Levels 1, 2, 3 | Catering & Hospitality | Full-time |

For a list of entry requirements for each course level see **page 22**

? **WHAT WILL I LEARN?**

- Food safety in catering
- Introduction to employability in the catering and hospitality industry
- Health and safety awareness for catering and hospitality
- Introduction to healthier foods and special diets
- Introduction to kitchen equipment
- Introduction in preparing and cooking dishes using a range of ingredients, preparation techniques and cooking methods such as boiling, poaching, roasting, grilling and steaming.

? **WHAT'S NEXT?**

CAREER OPPORTUNITIES:

- Chef
- Front-of-House Manager
- Caterer
- Sommelier
- Baker
- Food Product Developer.

UNIVERSITY & FURTHER STUDIES:

- Level 4 Culinary Arts.

Whatever your approach, our Catering & Hospitality courses will bring out the best in you and help you find your own style.

The TEC Partnership has trained some of the region's top Michelin-starred chefs including Andrew Pern and James Mackenzie - and we're sure you've heard of TV's James Martin?

Catering & Hospitality isn't just about cooking, there are lots of opportunities available front-of-house and our training will give you the skills you'll need to succeed in this exciting industry.

Within our local area, we are lucky enough to have national companies on our doorstep who develop products and sell them to high-street brands. These businesses use chefs to develop new menus and food ranges.

be **#realworldready**
for a career in

COMPUTING

Information technology has taken root in our day-to-day lives and can be found everywhere, from desktops and laptops through to mobile phones, automated machinery and even smart home devices like cameras and doorbells.

The Level 2 course introduces concepts relating to Computer Systems, Networking, Database Management Software Development and Web Development and provides you with the fundamental skills in software applications needed to work in these areas.

The Level 3 builds upon the same areas, visiting them with greater breadth and depth, you will start to produce work that more closely reflects professional outcomes and the programme takes a greater focus on the business contexts in which computing exists, to prepare you for the workplace.

? WHAT ARE MY OPTIONS?

| LEVEL | COURSE | DURATION |
|--------------|-----------|-----------|
| Levels 2 & 3 | Computing | Full-time |

For a list of entry requirements for each course level see [page 22](#)

? WHAT WILL I LEARN?

- Fundamental Principles of Computer Science
- Fundamentals of Hardware and Computing
- Computer Networking
- Systems Security and Cryptography
- Social Media for Business
- Website Development
- Software Development
- Programming Methodologies
- Computer Game Development.

? WHAT'S NEXT?

CAREER OPPORTUNITIES:

- Cybersecurity / Information Security
- Data Science
- Artificial Intelligence
- Robotics
- Software Development / Web Development
- User Experience (UX)
- Database Management
- Systems Administration
- Network Administration

UNIVERSITY & FURTHER STUDIES:

- An Apprenticeship in a related area
- Foundation Degree in Computing, which leads to a Top up BSc Degree.

“ THIS SUBJECT AREA LOOKS AT COMPUTER SYSTEMS, SOFTWARE AND WEB DEVELOPMENT, PROVIDING YOU WITH FUNDAMENTAL SKILLS FOR INDUSTRY. ”

be **#realworldready**

EARLY YEARS

On our childcare courses, you will learn different subjects to help you build up your confidence as well as helping children learn in a childcare setting.

Some of the units include healthy eating, safeguarding, craft activities, special educational needs and learning through play. These units will help you to understand what it means to work with children.

There are so many opportunities in childcare. Many students have gone on to work with children in nurseries, classrooms, as teachers or special educational needs support staff and even as personal nannies for families.

? WHAT ARE MY OPTIONS?

| LEVEL | COURSE | DURATION |
|--------------|-----------------------|-----------|
| Levels 1 & 2 | Childcare & Education | Full-time |

For a list of entry requirements for each course level see **page 22**

? WHAT WILL I LEARN?

- Listening and observation
- Communication skills
- Academic writing, research skills
- Planning suitable activities for young children and babies
- Health and nutrition for babies and young children
- Safeguarding
- Teamwork
- Problem solving
- Children, Young People
- Primary Education and imagination
- Numeracy and literacy
- Planning lessons and Families
- Psychology
- Nursing and Social.

? WHAT'S NEXT?

CAREER OPPORTUNITIES:

- Nanny
- Primary Teacher
- Nursery nurse
- Childcare assistant
- Classroom support worker
- Nursery assistant.

UNIVERSITY & FURTHER STUDIES:

- FdEd Early Childhood
- Studies at University Centre: Beverley and Bridlington.

be **#realworldready**

**ELECTRICAL
INSTALLATION**

? WHAT ARE MY OPTIONS?

| LEVEL | COURSE | DURATION |
|----------------|-------------------------|-----------|
| Levels 1, 2, 3 | Electrical Installation | Full-time |

For a list of entry requirements for each course level see **page 22**

? WHAT WILL I LEARN?

- Communication
- Renewable energy
- Circuits and electrical systems
- Maths
- Project management (scheduling)
- Cable fitting and wiring
- Critical thinking
- Teamwork
- Problem solving.

? WHAT'S NEXT?

CAREER OPPORTUNITIES:

- Wind turbine operative
- Industrial, commercial or domestic electrician
- Solar panel installer
- Cable fitting and wiring
- PAT testing technician.

UNIVERSITY & FURTHER STUDIES:

- HNC/HND Construction
- HNC Electrical and Electronic Engineering.

If you're curious about the inner workings of electrical systems, this subject area will give you the insight you need!

The teachers will show you how to wire your average light fitting right through to teaching you about the renewable energy sector.

You'll also gain the knowledge to build systems on your own and could even go on to be a freelance electrician or electrical installation contractor.

From learning how to wire basic sockets, to more complex lighting circuits and fire alarm systems under the watchful eye of our fully qualified and industry experienced teachers. A course in Electrical Installation at East Riding College could really illuminate your future.

Our Level 3 course is available via progression from Level 2 only.

be **#realworldready**
for a career in

ENGINEERING

Engineering is an area that continues to see outstanding growth in careers and opportunities.

This mechanically focussed subject area provides an excellent platform for you to develop your knowledge and understanding in the area.

You will study bench fitting techniques and have access to the latest CNC production machines in our new, state of the art Institute of Technology workshop. To support you further, we can assist you in making those employer connections so that you are able to experience industry settings as part of your training. Engineering offers exciting and rewarding opportunities, all of which start here!

? WHAT ARE MY OPTIONS?

| LEVEL | COURSE | DURATION |

- Fashion Design and Trends
- Materials Techniques and Processes
- Fashion MTP (Pattern/Garment construction)
- Critical and Contextual Studies in Art and Design (External unit)
- Visual Recording and communication (External unit)
- Textile MTP- Avant-Garde accessories
- The Creative Process (Year 1 FMP).

? **WHAT'S NEXT?**

CAREER OPPORTUNITIES:

- Designer for fashion, textiles or costume
- Fashion stylist
- Illustrator
- Wardrobe assistant or supervisor
- Event coordinator
- Merchandiser
- Production manager
- Buyer.

UNIVERSITY & FURTHER STUDIES:

Entry onto a wide range of foundation degree or degree programmes in art, textiles and fashion at universities and colleges.

Our Level 3 Fashion and textiles course is designed for students who have a keen interest in art, design and textiles and are looking to develop their skills and understanding of this subject.

You will be required to undertake numerous study trips and exhibition visits that will underpin your project work, and enhance a broader range of subject knowledge for your specialism.

This course has a multidisciplinary approach so will cover a broad range of topics and workshops that will prepare you for your chosen specialism for enrolling onto our degree programmes or going straight into the fashion industry.

be **#realworldready**
for a career in

HAIRDRESSING

These courses give you the opportunity to discover what it is really like to work in a realistic working salon environment, and we will provide you with the skills to perform a variety of services.

To further enhance your skills, you will participate in internal and external College competitions to showcase your skills in creating hair and beauty images.

The Image and Inspire salons are our real industry-standard working salons, where you will train and perfect your skills. You will have access to real clients to work with and you can also bring in family and friends to practice on!

You'll learn all the skills you need to work in a salon, as a mobile hairdresser, or even start your own business.

? WHAT ARE MY OPTIONS?

| LEVEL | COURSE | DURATION |
|----------------|--------------|-----------|
| Levels 1, 2, 3 | Hairdressing | Full-time |

For a list of entry requirements for each course level see **page 22**

? WHAT WILL I LEARN?

- Presenting a professional image
- Health and Safety in the Salon
- Shampoo and conditioning
- Cutting
- Perming
- Colouring
- Bridal styles
- Styling women's hair
- Reception duties and client care.

? WHAT'S NEXT?

CAREER OPPORTUNITIES:

- Hairdresser
- Hair/Session Stylist
- Salon Manager
- Working in spa and leisure facilities
- Working on cruise ships.

UNIVERSITY & FURTHER STUDIES:

- BA (Hons) Special Effects Make-up Design and Prosthetics.

be **#realworldready**

PLUMBING

Our Performing arts courses are designed to provide you with the knowledge, skills and understanding necessary to access and progress to degree level study or employment in the performing arts.

We provide an opportunity for those who have the passion and desire to develop the key disciplines of performing arts. Testing your creativity within a qualification structure which is stimulating, demanding and provides a supportive transition from general to more specialised study.

The course spans across Beverley for both practical sessions within industry standard studios and Hull's St James centre for theory and sometimes collaboration with our music team and the use of their recording studios.

? **WHAT ARE MY OPTIONS?**

| LEVEL | COURSE | DURATION |
|-------------|-----------------|-----------|
| Levels 2, 3 | Performing Arts | Full-time |

For a list of entry requirements for each course level see [page 22](#)

? **WHAT WILL I LEARN?**

The Level 2 is a starting point for those students looking for key introductory skills development within all performing arts disciplines, including acting styles, industry knowledge, script writing, skills in a variety of dance styles and its history, how to use the voice for both singing (musical theatre technique) and acting vocals (using the voice for stage as well as voiceover work), how to act for the camera in TV and Film work to name but a few.

The Level 3 UAL Diploma/Extended Diploma in Performance and Production Arts will take your knowledge and skills within all disciplines of performance and areas of production to the next level.

? **WHAT'S NEXT?**

CAREER OPPORTUNITIES:

The course is ideal if you're planning to progress to higher education or a career in acting, musical theatre, and dance, performance and production arts. It can also help you to pursue a career in the stage management, media, live music and touring, production and events management.

UNIVERSITY & FURTHER STUDIES:

- FdA Performing Arts
- Drama
- Theatre and Planning.

? **WHAT ARE MY OPTIONS?**

| LEVEL | COURSE | DURATION |
|--------------|----------|-----------|
| Levels 2 & 3 | Plumbing | Full-time |

For a list of entry requirements for each course level see [page 22](#)

? **WHAT WILL I LEARN?**

- Project management
- Gas awareness
- Teamwork
- Problem solving
- Communication
- Water pressure
- Pipe joining techniques
- Hot and cold-water supplies
- Above ground drainage.

? **WHAT'S NEXT?**

CAREER OPPORTUNITIES:

- Industrial, commercial or domestic plumber
- Gas installer
- Boiler repair.

UNIVERSITY & FURTHER STUDIES:

- Anglian Water pre-apprenticeship Level 2 course
- HNC/HND Construction.

Your study programme is tailored around you to include units about the future technology of the industry, employability skills, and personal development.

Our teachers are all qualified plumbers and have industry experience, so they can give you great insight into what it's like to make a living as a plumber. They'll also be able to teach you key skills such as plumbing systems, the importance of water pressure, pipe joining techniques, hot and cold-water supplies and aboveground drainage.

Prospects for plumbers are great and they're always in demand. From soldering pipework, hanging radiators and installing boilers, our qualified and industry-experienced team will be there to guide you every step of the way.
