

THEY DID, YOU CAN TOO!

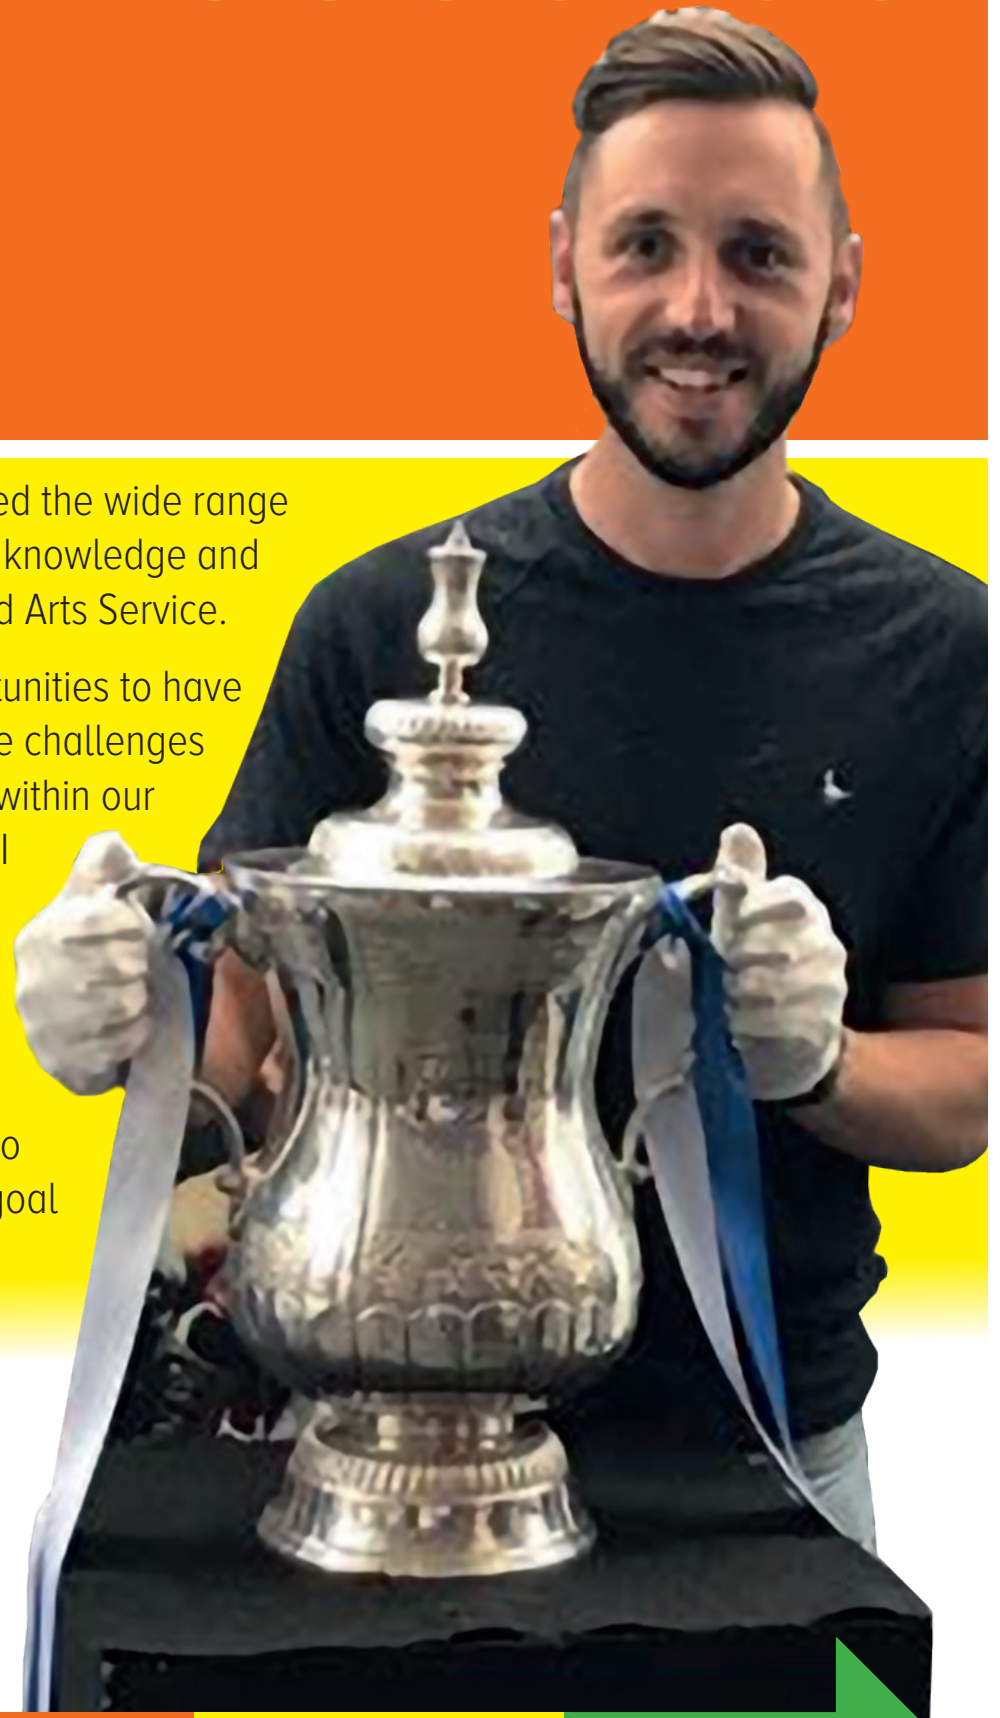

PROGRESSION SUCCESS

Adam Swan

College was a great learning curve for me and I thoroughly enjoyed the wide range of modules undertaken as part of the course. It helped me to gain knowledge and experience which I have used since working for the Sport, Play and Arts Service.

I also enjoyed how the course was delivered and gave you opportunities to have a better understanding of what it's like to work within sport and the challenges that brings. As part of one module we undertook mock interviews within our group and it was made to feel like a proper interview which when I look back really helped me when I had my first interview in 2011, I could pull on the experience I had at college to help me in my preparation and also how to conduct myself within an interview.

Overall the Sport Diploma at East Riding College exceeded what I was expecting and I couldn't fault any part of it. It was a great two years which I can definitely say helped me to achieve my career goal of working within sport.
