

THEY DID, YOU CAN TOO!

PROGRESSION SUCCESS

Rebecca Bolton

Rebecca came to the college in 2008 to study the BTEC National Diploma in Sport (Coaching, Development and Fitness) – achieved DDD. While at College she volunteered with Burlington Jackdaws U6-U9's mixed team before going off to University. At York St. John University she studied the BA (Hons) in Physical Education and Sports Coaching and achieved 2:1 degree. She also picked up a VTCT Level 3 Sports Massage from York College at the same time! She completed the FA Level 4 Intermediate Trauma Medical Management in Football qualification at St Georges Park which combined with her sports massage qualification helped with her pitch side first aid for Scarborough Athletic FC for 3 seasons.

When working for Hull City Tigers Trust she delivered football and multi sports to primary schools in East Riding. It was during her time there she took on a women and girls programme which led to her decision of moving more into women and girls football development.

She moved away from Bridlington in August 2017 to pursue a career in the FA. Rebecca now works for the Suffolk Football Association and is the Women's and Girls' Football Development Officer for the county.

Rebecca intends to continue her work for the Suffolk Football Association for a few more years while networking and creating contacts in the FA.

Her long term goal is to possibly move into The FA to look after national women's football.

Rebecca's timeline

**BTEC NATIONAL
DIPLOMA IN SPORT**

2008-2010

**VTCT LEVEL THREE
SPORTS MASSAGE**
